Course Description

The course is intended for personnel involved in hazardous substance removal, remediation, waste management operations under RCRA, or other activities where chemical exposure or the potential for exposure or health hazards to workers is present. Supervisors and managers are also required to take this course. This is a 40-Hour course covering the requirements of the Occupational Safety and Health Administrations 29 CFR 1910.120 and California Title 8 CCR 5192.

While at Work

Will you be expected to:

- Respond to a release for the purpose of stopping the release
- Assume an aggressive role in the control of the release
- Be a part of a response team that will plug or patch the leak
- Help select appropriate procedures and equipment

Friendly FYI:

If the above dates and times do not fall within your timeframe, please call 858-621-2313 x.115 for information about on-site training and consulting.
